

## FY 2022 Employer Partnership Training Grant Recipients

### Round 1 Grantees

Organization	Purpose	Industry
Atmos Solutions Inc.	Atmos will provide in-classroom and on the job training to DC residents allowing them to obtain in-demand skills and industry-standard certification in hazardous waste abatement.	Construction
Medici Road	Medici Road, along with their training providers, will support displaced and low-wage workers through a comprehensive hospitality management training program that closes the opportunity gap in the industry for low-wage workers.	Hospitality & Tourism

### Round 2 Grantees

Organization	Purpose	Industry
A. Wash and Associates	A. Wash and Associates aims to address under/unemployment within the disenfranchised community in Ward 7 & 8 through intentional case management, assessment, and job placement process where participants are monitored through community-based support.	Construction
Excalibur Legal Staffing, Inc	The Excalibur Group (Excalibur), a minority-owned CBE, will provide DC residents training in their Community Focused Employment Program (CFEP), aiming to assist residents in achieving new, sustainable work through certifications in insurance and IT.	Business Administration and IT; Finance Insurance
Health IT 2 Business Solutions, LLC, dba Codice	Codice will address the current challenges IT employers face with recruiting qualified talent particularly among underrepresented communities to meet the requirements for positions in Information Technology. Their program is designed to enable the DC employers within their Consortium to recruit, provide technical skills training, workplace learning, and place into full time employment.	Business Administration and IT
United Planning Organization	United Planning Organization's project will provide training to new and current early childhood educators who are in the process of obtaining or have already obtained their Child Development Associate (CDA) credential. Their project will help UPO as well as the early childhood care and education (ECE) sector city-wide, which is currently experiencing teacher shortages as well as a shortage of licensed early learning slots.	Early Childhood Education
