

Do You Know an Adolescent who Needs Help with a Substance Abuse Problem?

Taking the first step to get help is often the hardest and most important – the Adolescent Substance Abuse Expansion Program (ASTEP) is here to help.

Anyone Under 21 Can Ask for Help Themselves.

Parents, Teachers, Doctors, Mentors, and Others Can Help Open the Door.

There are three steps to access adolescent substance abuse treatment in the District:

STEP 1 → Review the list of participating ASTEP Providers.

STEP 2 → Schedule an appointment. Many ASTEP providers accept walk-ins or make same-day appointments.

STEP 3 → Receive a comprehensive substance abuse assessment and discuss treatment options with a caring treatment professional.

ASTEP Providers

Provider	Address	Telephone	Ward
Federal City Recovery Services	316 F St., NE, Suite 118	202-548-8460	6
